Directory of Web 2.0 Software

Version 1 posted by Jo Nelson on Thursday, February 11, 2010 9:50 AM
A link to an active list of collaboration software.

A link from the Professional Facilitators Network on Linked In.   To help uncover the effectiveness of innovative software during company meetings, you might find more if you point to examples. An excellent directory of such applications is http://www.go2web20.net/ .
